Meet the Expert

Mervyn G. Williams

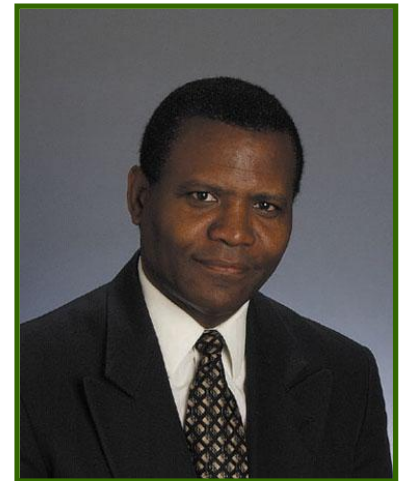

President & Founder

Prostate Education Awareness Foundation

Life has many challenges, but when you go through a life threatening experience it gives you a different perspective on how to appreciate this precious gift.

In September of 2007 Merv underwent surgery after being diagnosed with Prostate Cancer. During his recovery he decided to re-evaluate his life, and made a decision to dedicate himself to the Education and Awareness of men 40 years and older in the State of Arizona, and around the Country, on the benefits of Annual Screening for the Early Detection of Prostate Cancer.

Merv now conducts Seminars to Church groups, Organizations, Clubs, and Corporate Employees through their Wellness Programs, in the USA, Canada, and Jamaica. He also consults with individuals across the country and Canada by phone, and talk radio.

During his presentation, you will travel through his personal journey of discovery, approach to treatment and success over this Cancer. His audiences often comment “I have never heard it explained like this before, and I now have a better understanding of Prostate Cancer”.

Please join Merv as he shares his personal journey and inspiration.

When: February 13, 2012 at 2PM

Where: Starpointe Residents Club
